This is How Street Supervisor **Explains Origin of Private** Pathways.

ROCK QUARRY ON PREMISES.

It is Located in Rear of Barns And is Supplied by Stone From City Streets.

Mr. Raleigh Courts Investigation and Councilmen Will Probably be Glad to Give it to Him.

For several days the "News" has been printing various phases of a rumored graft which may be made the basis of a formal investigation by "American" party councilmen, for the purpose of ousting Street Supervisor Jake Raleigh from office. With the other undesirable Raleigh out of public service, the limelight centers upon the supervisor, whom the ascendant "American" faction considers the prize incompetent of all the office-holders. By cleaning house themselves before the startling condition of city affairs becomes a campaign issue, and letting the knife of retributive justice fall on those whose actions they consider have merited punishment, the party backers hope to avert the catastrophe of further punishment at the

SHOULD INVESTIGATE.

By all means the city council should investigate Raleigh, street supervisor. He declared last night that the charges printed in the "News" were These charges were not made by the "News," but were printed as data in the hands of certain councilmen of Raleigh's own party which might be used against him. The substance of them was that Raleigh was using his public position for private ends in that the Raleigh home was paved with stone blocks, exactly of the kind used in the street intersections and the further charge was made that in the rear of the premises there was more paving material, properly subject to investigation. Raleigh says he intends to take the city councilmen who accuse him of graft down and show them his barn. Last night he took a "News" reporter down, and the barn floors were found to be of ordinary boards well worn by age, and suggesting that they had been in exactly the present condition for many years. As far as the barn floors are concerned they make a good case for Raleigh, but it would be well for the councilmen to go down.

LONG STONE WALK.

When they get there they should enter by the front walk, and they will find that they have to walk over about 200 feet of street paving stones to get to the Raleigh house, provided he takes them into the west house on his premises. The other is innocent of

FLAGGING THE VOGUE.

In the old days of the Morris administration paving for intersections was composed of small stone blocks. Lately intersections have contained a strip of flagging 18 inches wide in the center, flanked on either side with block stones. The Raleigh pathway looks exactly like a new style street intersection except that the tiers of flanking stone blocks are not so many as in an ordinary street crossing. Two widths of stone run along the east side of the central flagging. One width of stone runs along the west.

these blocks at the time they were given to me," says Raleigh, "Frank Gowan, superintendent for P. J. Moran, gave me four loads of paving blocks, and I used them for sidewalks on my rremises."

THE STONE QUARRY.

By all means the council should accept Mr. Raleigh's invitation and go down. After they look at the innocent board floors in the barn, and take in the injured expression on the face of Mr. Raleigh, they should go around behind the barn. Here they will find the Raleigh private stone quarry.

The stones found in such natural quantity are the finest quality of large cobble rock, a stone much in demand for the new style of bungalow houses, and for facing in cesspools and cellars. Neighbors of Mr. Raleigh answered questions from a "News" reporter today by explaining that Raleigh has rock for sale from this pile for cesspools and other purposes, and that the rock was hauled in there by city teams, also that 'it was secured from roads where the city is engaged in grading work. The city council committee might bring hefore it anyone who can be found to have bought rock from Mr. Raleigh's private quarry, located behind the barn.

WHO DELIVERS SALES.

Such people then might be asked to testify whether it was hauled in teams that were on the city pay roll, or teams that Mr. Raleigh hired personally. The able that the teams which hauled it in were driven by men drawing a daily Wage from the city. Mr. Raleigh wants the councilmen to come down at the carliest date he can secure them. Now that they have no Sheets problem to worry them, and no "Defective" Ra-

leigh case to absorb their time, they probably will not delay long on account of other "important business."

UNATTACHED POLISH PRIEST COMMITS DOUBLE MURDER.

Pittsburg, Aug. 8 .- Ludwig Sezegiel, said to be an unattached Polish priest of Chicago, walked into a hotel at Ill Carson street early today and without warning, it is said, drew a revolver and fired upon the two proprietors, twin brothers named Steven and Andrew Starzynski.

Steven died within an hour and Andrew cannot recover.

The cause of the shooting is a mystery. Sezegiel, who was arrested, re-fuses to talk and nothing could be learned from either of his alleged vic-

When Sezegiel came to Pittsburg

When Sezegiel came to Pittsburg about 10 years ago, he went to the hotel kept by the brothers, accompanied by a woman whom he introduced as his housekeeper. They secured an apartment of two rooms. The woman, who gave her name as Francisca Sproeck, is held as a suspicious person. She denies all knowledge of the crime. Sezegiel, it is said, had been drinking heavily ever since he arrived in the city.

It was stated by Mrs. Starzynski, wife of Andrew, that about 10 minutes before the shooting, a noise was heard in the apartments occupied by Sezegiel and the woman. Her husband, she said, went up stairs and reprimanded the pair for making a disturbance. He then went down stairs and joined his brother in the dining room. In a few minutes, she says, the priest appeared in the doorway and opened fire.

The prisoner wears the partial dress of a clergyman. The police authorities do not believe the man is a member of any clerical order, but that he had a purpose in assuming the priestly garb.

SPICE TRADE ORGANIZATION.

New York, Aug. 8.—The first organization ever known in the spice trade has been effected here. Fifty-six of the most important concerns of the various centers were represented. The new organization will be called "The American Spice Trade association." Its objects are to settle questions and disagreements that may arise in the trade. Besides a majority of New York firms in the trade, the memberships include firms in Philadelphia, Baltimore, Cincinnati, St. Louis and other towns.

BOILER MAKERS' STRIKE.

No Change in Affairs on the Southern Pacific.

San Francisco, Aug. 3.—No change has been effected in the status of the Southern Pacific boilermakers' strike, so far as has been reported to the local offices of the company. All of the boilermakers in the Pacific division from El Paso to Ashland, Or., and from San Francisco to Sparks, Nevada, are out. The total number of the strikers is approximately 250 according to local Southern Pacific officials and only six or eight men in the entire division—at San Francisco and Sacramento are at work.

CAUCUS ANGERS BLACK AND DAVIS

Insurrection Formed in Council Against Backers of Halloran For Mayor.

FIVE VOTES ARE AGAINST.

The City Fathers Resent Action of Party Leaders in Leaving Them Out in the Cold.

It was generally understood yester day that all roads led to Halloran as the "American" party choice for mayor to succeed Ezra Thompson who has taken to cover since it became clear what was bound to come out in the nature of graft exposures and failures to secure efficient public administra-

W. J. Halloran was the choice of those who camped along all the roads, at their meeting in the Tribune building yesterday afternoon. But Hallor an is not the choice of the "American" faction of the city council. Nine "Am ericans" are in the council. Because "persuader" committee of the "Am erican" party backers was appointed yesterday afternoon to see that the council accepts Halloran, a combine was formed today among the "American" councilmen to maintain their position as leaders, instead of assuming their new role of voting puppets.

COUNCIL PUPPETS. The "American" party backers look on the city councilmen as people with strings attached for the mere purpose of being pulled, and the councilmen see that they are placed in this public position of humiliation. None of them were invited to the caucus that atempted to settle the fate of the mayor-

tempted to settle the fate of the mayorship.

The reason for this is apparent, too. W. Mont Ferry would have been invited, had he been in town, for he is known everywhere for what he is. It is different though with Black, Martin, Mulvey, Davis and even Crabtree, Their reputations have grown less in their own camp the longer they have been in office. The McWhirter case has Mulvey's name firmly fixed in relationship to it, and the only gratitude his party feels for him is for his work in rounding up the tenderloin and gambler vote. Black has a combination with Davis that has fill-bustered on important franchise matters until the filbustering has become decidedly suggestive and brought forth an insinuation of a "black hand" combine. Crabtree and Martin have been known as intimates of the Davis-Black duo, and with all this combination the new "American" party leadership is not anxious to affiliate.

CHOICE OF PARTY BACKERS

CHOICE OF PARTY BACKERS

At the meeting yesterday afternoon Halloran was decided upon by J. E. Darmer, president of the city committee; Frank I. Sefrit, manager of the party organ; D. C. Dunbar, a city committeeman; H. G. McMillan, a prominent man in the party councils, who himself was much talked of for mayor; Col. E. A. Wall, who refused a chance to be mayor; Willard F. Snyder, chairman of the "American" state committee; B. B. Heywood, for merly United States marshal; George A. Black, formerly governor; A. T. Moon, William Nelson, Dana T. Smith, Allan T. Sanford, Fred J. Leonard, B. F. Redman, George W. Moyer, Thomas Homer, and A. F. Doremus. Other members of the executive and

city committees present who concur-red in the choice were Will Showell, Earl Ripley, S. P. Armstrong, Joseph Pugsley, John M. Hofenbeck, Judge H. J. Dinniney, Judge A. J. Weber, E. B. Critchlow, D. C. Dunbar, and Geo.

NOT A COUNCILMAN

In all this list of committeemen, pary leaders, and prominent citizens there s not the name of a single city councilman, who do all the actual voting or mayor.

Their insurrection, organized today, does not count Hobday in its membership. There are five of them, however, enough to spoil Halloran's selection, as it takes eight votes for a choice. Those against Halloran are Crabtree, Black, Martin, Davis and Mulvey, all of them angered at being left out in the cold at the caucus. They hope to win over to them Carter and O'Donnel. Their favorite is Davis, a city council man, as the head of the "American" machine that actually presides over public expenditures. Black and Davis are proud of the machine they have built up through their control of city patronage, and Halloran is the man who has chiefly fought them down through his position on the board of public works. They do not take to him. Davis as mayor means their continution, as it takes eight votes for a choice. Davis as mayor means their continu-ance in power, and Davis they will have if they feel strong enough to ov-erride the wishes of the men who han-dle campaigns, and promise to handle

the next.

But Davis is not on the ground at present to fight, and should there be a compromise, there are a number of dark compromise, there are a number of dark horses walting for the day of grooming so that they may trot out in good form at the right moment. Five Dem-ocrat votës, in combination with dis-satisfied "American" votes may land a compromise candidate outside of the "American" party unless the wounds of yesterday are healed before Monday

JUDGE GROSSCUP STRONGLY FAVORS FEDERAL CONTROL.

SECY, TAFT AND THIRD TERM TALK

He Will Have on His Tour, Definite Knowledge How it is To be Silenced.

Thought That at Columbus He Will Define His Attitude Towards Roosevelt Policies.

Chicago, Aug. 8 .- A dispatch to the Record-Herald from Washington says: Secv. of War Taft will be back in Washington next week from vacation. On the way from his retreat in Canada, the secretary of war will call at Oyster Bay for a long and final talk with President Roosevelt before leaving on his trip to the Philippines and around the world in September. The conference with the president possibly will be more significant politically than otherwise. It is reparded as probable that if President Roosevelt has thought of any new plan of eliminating himself from consideration in connection with the nomination on the national ticket a year hence, more absolutely than through his utterance on the night of election in 1904, he may lay it before Secy. Taft when they meet. The secretary will therefore be in a position to go across the continent on his speechmaking tour with definite knowledge of how the third term talk is to be silenced. Some facts have leaked out within a day or two regarding the character of the talk which Secy Taft will deliver to the people when he opens his campaign in earnest. First and foremoet in many particulars will be the address at Columbus. Considerable data have been supplied relative to the railroad situation in all its phases, the deduction therefrom being that the secretary will declare at the start his policy in furtherance of the Roosevelt principles, which will be prosecuted at his hands if he is nominated and elected chief executive to succeed the present incumbent.

TIMBERMAN BARNEY'S BODY FOUND AND EXHUMED

Denver, Aug. 8.—A special to the News from Telluride, Colo., says: What is said to be the skeleton of W. J. Then it Would be as Impossible To Withdraw as it Was for Great Britain in Egypt.

Germany Prepared to Recognize France's Predominance on Certain Conditions-More Men Landed.

Parls, Aug. 8 .- In spite of the firm inention of the French government to keep within the terms of the Algeciras convention in its dealings with Moroco, the French press clearly foresees that France, unless the situation rapidy improves, has entered upon a long and heavy task. The newspapers express the opinion that France, upon which the chief burden in restoring security in the disturbed country will fall, may be forced to occupy in turn all the Moroccan ports and then probably be compelled to undertake a punitive expedition to Fez, after which it would be impossible to withdraw, as was the case with the British in Egypt. As the British bombardment of Alexandria ensured the prestige of Great Britain in Egypt, so, it is argued, the French bombardment of Casa Bianca will have a similar effect in Morocco. An expedition to Fez, the newspapers point out, would, like the British victory at Tel El Kebir, complete the par-

aliel.

The Petit Parisien today prints an interesting interview with a high personage at the German foreign office, who indicates that Germany recognizes the dogic of the situation and is prepared to acquiesce in France's "incontestible predominance" in Morocco, provided France is prepared to give a quid pro quo in the shape of the admission of German government and German industrial securities into the French market.

MORE MEN LANDED.

MORE MEN LANDED.

Tangier, Aug. 8.—The French warships yesterday landed 2,000 additional men at Casa Blanca, where street fighting apparently continues, judging from the desultory firing heard day and night by those on board the ships anchored off the town. The Jewish quarter of Casa Blanca has been sacked. Many persons were massacred in the streets, the city is said to be full of dead Moors and the Moorish quarter is in ruins, having been set on fire by the shells of the big guns of the cruisers. The stores are closed and much hunger and distress prevails among the poor.

The foreign consuls have ordered the stores to be reopened and have established a special tariff for foodstuffs, designed to mitigate the sufferings of the poor.
